
What is NLP?

NLP or Neuro-Linguistic Programming, was co-developed by Dr. John Grinder Ph.D. and Dr. Richard Bandler Ph.D., to model and to replicate the patterns of exceptional performance in any field.

NLP has been described as a technology based upon an attitude of curiosity towards life, coupled to a methodology of reframing. Modelling is the heart of NLP wherever NLP is practised, be it in communications, therapy, or business.

Neuro is how the brain works to take in more information and make the best use of it.

Linguistics is how we use language to structure and enrich our experience.

Programming is how we build useful habits to build success.

NLP the art and science of human excellence, is a way of bringing out the best in yourself, and in others.

An assessor from the NLP Trainers' Registration Body may be present at experiential evaluation, which will be held on the final two days of the programme.

Recognised by The NLP Trainers' Registration Body, The Accredited Course in Practitioner of Neuro-Linguistic Programming is a twenty-one day NLP Practitioner Certification Training. It is an entry-level programme to the field and does not require prior knowledge of NLP.

It allows students opportunity to gain a formal high quality qualification in the field of NLP.

This programme provides a comprehensive grounding in both Classic Code and New Code NLP. It comprises only pure NLP

This qualification fulfils the recognition requirements for all international associations of NLP and also by the NLP Trainers' Registration Body, and its patron, John Grinder.
